

BPA Energy Efficiency Weekly Announcements, May 28, 2015

Events

Brown Bag: Come Learn About the Most Recent Federal Appliance Standards Analysis -

Join us June 2 from 12:00 - 1:00 pm to learn about the final results from the most recent round of federal appliance standards analysis. Appliance standards will save enough energy over the next twenty years to power over a million homes in the Northwest. You will learn the results from our analysis, how we quantified the savings, the review process for the models and how standards are impacting utility energy efficiency programs...[More](#)

The final reports and models will be published soon at www.bpa.gov/goto/MomentumSavings

Brown Bag: Commercial Utility Preference Assessment Survey Results -

Please join the Energy Efficiency Commercial team on June 4 from 12:00 - 1:00 pm as we review results from the Commercial Utility Preference Assessments. More than 40 utilities submitted information about their wants, needs and preferences from the BPA commercial program. John Wilson will present the results and discusses the diverse needs of our utilities...[More](#)

Brown Bag: We Have Draft Results for Non-Residential Lighting Momentum Savings!

Join us June 10 from 12:00 - 1:00 pm to learn about the draft results for Non-residential Lighting Momentum Savings. Non-residential lighting is a dynamic market, impacted by federal standards and the rapidly shifting technology of LEDs. We will share what we have been learning about the market for lighting, the draft savings results of our analysis, and then provide information on the review process to finalize the analysis and how to submit comments to improve the draft analysis and to improve our future research...[More](#)

General

Seeking Feedback on Proposed Changes to the UES Measure List -

BPA is working to simplify our UES measure list to improve its usability for our customers. Before we make any changes to this important tool we are seeking customer input to ensure we do not change or remove information that is necessary for customer operations, or otherwise cause unintended difficulties for customers who use this document to support their own internal systems.

The survey linked below will allow you to provide your feedback on our proposed changes to the UES measure list. We would be grateful if you would provide us input by June 11.

If you have questions or comments please contact your EER.

Reminders

Draft Momentum Savings Allocation Percentages for review through June 30, 2015 -

BPA has posted draft Momentum Savings allocation percentages for review. BPA developed the draft momentum savings allocation methods in close collaboration with the public utilities. We welcome all comments and feedback on this draft method received by June 30, 2015. BPA will review comments and issue a revised method by the end of July (although more time may be necessary if the comments we receive are substantial). Please find it on the BPA Momentum Savings webpage: www.bpa.gov/goto/MomentumSavings. Upon review, please send comments to your EER or to Bonnie Watson at bfwatson@bpa.gov.

Oversight of Fiscal Year 2014 Activity -

We appreciate your partnership in acquiring EE savings. As a part of that partnership BPA conducts oversight to make sure the program is working smoothly, and that the savings we achieve as a region provide a reliable resource. In the coming weeks BPA will begin conducting oversight on FY 2014 savings. Last year BPA piloted a new approach with a small a group of customers. This year we will build upon that foundation with improvements based on the input we received. We appreciate your help with this process... [More](#)
